Missouri Farmer Finds Relief After Suffering for 25

"For twenty-five years I was looking as something to relieve my troubles and ave found it at last in Tanlac." gaid thehard Oldham, living on R. F. D. No., Platte City, Mo., a prosperous farmer the has lived in his community for lifty years.

I. Pintte City. Mo., a prosperous farmer who has lived in his community for fifty years.

"I have so much raith in Taniac," continued Mr. Oldham, "that I have come all the way from Flatte City, a distance of twenty-five miles, to get me another bottle. All these years I suffered terribly with indigestion. As soon as I would eat anything I would bloat up with gas and there was such a tightness in my chest that I could hardly get my breath. Even a drink of cold water weuld seem to set me on fire inside, and often I would turn so faint and weak that I could hardly do a thing, and although I tried everything I could hear of I could only get a temporary relief.

"I have taken only three bottles of Taniac so far and the way I have improved is simply wonderful. My appetite is fine and I am not troubled with indigestion like I was before and am getting better every day."

Taniac is sold in Memphis by Warnock Drug Co., and Weiss Pharmacy, and all the leading druggiets in practically every city, town and village in America.

Such Action Is Necessary for American Competition in World Banking When Peace Is To Be Re-established.

BY DAVID LAWRENCE.

RY DAVID LAWRENCE.

(The News Scimitar's Special CorreWASHINGTON, July 4—Repeal of
that provision of the revenue act which
imposes a tax on the interest which
American banks pay ponessident foreigners depositing money in this country is forecast in an expression from
the treasury department todax.

Now that the world war is about
over and trads conditions are tending
toward their normal status the competition in trade and banking becoming
particularly keen, protests have been
coming in to the treasury department
from banks on the Mexican border and
from other banks who handle money
for European customers that American
banking institutions were handicapped
by the tax on interest. Other countries, it was averred, dispensed with
that tax. Zach Lamar Cobb, formerly
celliector of customs at El Passo and
heretefore one of the department of
state's experts on business and political
relations with Mexico, prepared an exhaustive memorandum, shewing that
Canadian banks with branches in the
United States could actually offer Mexican industrial concerns a privilege
which American banks could not meet,
because of the revenue act. A Mexican
concern could carry its balances with
a Montreal bank and use the New York
hranch of the Canadian institution for
checking purposes and receive interest
without the payment of a tax. British
banks are telling customers in Mexico
and Central and South America that
they will carry their deposits without
deducting a tax. Daniel S. Roper, commissioner of internal revenue has written Mr. Cobb the following letter:

No Tax Upon Balances.

No Tax Upon Balances.

No Tax Upon Balances.

The question involves an important matter of principle. I believe that the federal government should not impose a tax on such balances maintained in this country by persons or corporations who are not otherwise taxable under our laws. To tax such foreign balances, puts a handicap on the United States as an international money market and discourages other countries from doing financial business here when, as a matter of fact, we should in every proper way be encouraging them to do their banking with us. The fact that the amount of the handicap thus imposed on foreign banking in the United States does not involve a very large percentage does not change the principle.

It is a recognized fact in international banking that trade follows bank deposits. The supremacy of England in world trade has been due largely to the holding by London of the deposits of the world. Bank balances everywhere have been cleared by checks on London.

To Seek Foreign Money.

To Seek Foreign Money.

During the war much of this business was diverted to New York. New European banks are naturally making an effort to recover some of it and the competition is on. Action by congress in line with Commissioner Roper's letter is believed to be assured and when taken will enable New York to seek deposits from the outside world and carry them without handicap.

The treasury department was to some extent influenced in its decision by receipt of the following official information:

"Canada imposes no tax, income or otherwise upon interest paid to foreign depositor, individual or corporation, by Canadian banks, holding such deposits unless the individual or corporation is resident in Canada, employed in Canada or carrying on business in Canada banks by foreigners is not considered carrying on business in Canada.

Deposits Are Heavy.

Deposits Are Heavy.

Conservative estimates place the total deposits in this country from individuals and corporations in foreign countries generally at more than a billion dollars. Mexico alone probably has as much as \$200,000,000 on deposit in the various banks of the United States. In financing experts to Europe and elsewhere during the reconstruction period loans must be made by American banks. where during the reconstruction period loans must be made by American banks to foreigners who desire to buy American goods as well as to American exporters at home. In the usual course of banking people borrowing money must carry balances with the banks making the loans. The natural tendency therefore will be for foreign deposits in the United States te increase. The repeal of the bothersome tax will foster that tendency. Officials of the United States government in the several departments concerned with foreign trade seemed more alert to the necessity for upbuilding foreign trade, establishing new markets abroad, and giving employment to the hundreds of thousands of workers who must be diverted from the occupations of war to the industries of peace.

ALERA OPPOSES LEAGUE OF NATIONS AS PIRACY

NEW YORK, July 4.—Emmon de Valera, president of the "Irish republic."
Issued a statement here Thursday night
opposing the proposed league of nations covenant, which he declared would
"guarantee their ill-gotten goeds to
certain pirate nations and pledge the
signatory nations to discountenance any
future efforts of liberty-loving peoples
to help the oppressed to throw off the
yoke of their alien rulers.

Mr. de Valera made public in connection with his statement a copy of
a communication which he addressed
to the peace conference on May 25 requesting that Ireland's "duly autherized
delegates." Mr. de Valera, Count
Flunkeft and Arthur Griffith, be permitted to take part in the drafting of
the league covenant.

After declaring that Ireland favored
the league of nations plan and was desirous of being included "as a consititeen member" the communication
continued:
"Anart from the general grounds of

stituent member" the communication continued:

"Apart from the general grounds of right the Irish nation has a special and peculiar interest in the league at present proposed.

"In the form in which the covenant is now drawn up it threatens to confirm Iroland in the slavery against which she has persistently struggled since the English first invaded her shores, and to pledge the rest of the civilized world which has hitherto done us no wrong to discountenance in future our just endeavors to free ourselves from the regime of involacable and brutal oppression under which we have suffered so ions.

"Ireland is a distinct and separate nation with individual inalienable rights which any league of nations founded on justice is bound to recognize."

ATLANTIC CITY SALOON KEEPERS ARE ARRESTED

ATLANTIC CITY, N. J., July 4.—Nine saloon keepers were held in \$1,000 bail in a hearing today before the United States commissioner charged with violating the war emergency dry law by selling whisky and wite. Apparently no charge of heer selling was lodged against the offenders. The proprietor of a leading boardwalk cabaret emporium was singled out as the chief offender and his bail was fixed at \$2,000. A number of bartenders and watters gave bail in \$500 to \$200. Their cases will come before the tederal grand jury in Trenton. Contrary to earlier reports Thomas Williams, president of the Retail Liquor Dealers' association, was not included in the batch served with warrants earlier in the day.

Todd Daniels, chief of the department of justice forces in the Philadelphia district, will come here to enforce an order that the sales of wines and liquors must cease. He has announced that he will not interfere with the selling of 2.75 per cent beer. His presence here is searcely necessary as the arrests has bad the effect of shuting off the sale of everything except beer of low alcoholic percentage.
